

Amazing Design For Your Life

We offer end-to-end bespoke consultation services in English.

Service

We offer a wide range of services, from architecture and interior design for residential and commercial properties to comprehensive building renovation and will coordinate all phases of the project to match your tastes, your ideas and your dreams. Our international team of staff members will assist you in dealing with the complex world of Japanese carpenters, designers, architects and contractors, as well as the many rules and regulations.

We follow your ideas to find the perfect design for your project, proposing interiors, finishings, a wide range of materials and the perfect fabrics and colors to complete your space and deal with many furniture brands in Japan—both domestic and overseas firms—to customize your space.

It can be your family house, a Tokyo pied-à-terre, your new business office or even your dream hotel in the busiest and most populated city in the world. We can propose the right construction materials, architectural design package and interior atmosphere to fulfill your needs.

In recent years, Japanese residential properties have become increasingly popular among international residents and investors drawn to the value of real estate properties in Japan. As the communication barrier makes it difficult to request specific room layouts or special interior design, we regularly hold consultations with developers as well as real estate agencies to assist them in meeting the needs of international clients.

Architecture & Renovation

Our team of architects and designers will create and develop your residential and commercial spaces, utilizing our local and overseas project experience to bring your ideas to life. We offer specialized consultation services, including Japanese legal requirements and our staff is always available to provide a personalized one-stop experience.

Hotel Design

We provide the latest architecture and design concepts for new hotel and renovation projects and have recently completed several successful projects as seen in our portfolio. Our staff provides a full range of purchasing services for all hotel FF&E needed, interacting with our design teams to put together a complete package and support your hotel opening process.

Showroom/Restaurant

We have expanded our services to include showroom / restaurant renovation, and will utilize your brand concept to support your business, offering new architectural and design strategies. Our staff is ready to work with you on your next store project, and our portfolio will give you an idea of the concepts we have successfully utilized.

Interior Design

Our talented designers will help you create the best interior design for your project, from choosing colors to designing custom-made furniture to decorate and refurnish your space, and our staff will support you through each step of the design process, to provide a personalized and project specific plan to meet all your needs.

Office Design

We offer a full line of office design and architectural services, to fully realize the potential of your workspace, and our staff will provide one-stop services for all areas of architectural and design work needed, utilizing our extensive experience as shown in the design portfolio.

About Us

Based in Tokyo, we deliver a wide range of services from interior design and construction to full-scale building renovation and construction work.
